Subject: Re: Finger Lakes #1 and #2

Hi Frank

I am in Watkins where it is as cold as the North Pole. I think someone has screwed up on the global warming issue. We have not done anything on the 2 wells. I will check with Linda or Debbie and see why they have the drilled depth. The permits have not been issued yet.

Thanks Barry

Hi Barry! Hope you are somewhere warm! I received an inquiry as to whether Finger Lakes #1 and Finger Lakes #2 have been drilled. The state's website lists a "drilled depth" but yet no spud date, which I think is fueling the confusion. Anyway, thought I'd double check with you on the status of these wells. Thanks! Frank
